CHAIRMAN'S MESSAGE

On behalf of the Associated Builders and Contractors Nebraska/South Dakota chapter, it is my honor to welcome you to our member directory.

This publication represents far more than a listing of companies—it reflects a dynamic network of professionals united by a shared commitment to excellence, integrity, and the merit shop philosophy.

Across Nebraska and South Dakota, our members continue to lead the construction industry by prioritizing safety, investing in workforce development, delivering quality craftsmanship, and embracing innovation. Together, we are not only building projects but also building people, strengthening businesses, and supporting the communities where we live and work.

The strength is rooted in the engagement and leadership of our members. Whether through education and training, safety initiatives, legislative advocacy, or meaningful industry connections, your involvement drives the continued growth and impact of our chapter.

I encourage you to use this directory as a valuable resource—to connect, collaborate, and support fellow members. The relationships built here are what move our industry forward.

Thank you for your continued commitment to ABC, the merit shop philosophy, and the future of construction.

Sincerely,

Mark Stuchlik

Mark Stuchlik
Interstates, Inc.
Chairman, ABC Nebraska/South Dakota

A MESSAGE FROM THE PRESIDENT

It is a privilege to work alongside our ABC members—professionals who continue to raise the standard for our industry every day.

ABC NESD exists to advance our members—and the merit shop construction industry—by focusing on what drives long-term success: a skilled workforce, a strong safety culture, and companies positioned to compete and grow. Our role is not simply to provide programs, but to deliver meaningful value through education, advocacy, and connection.

As our industry evolves, so must we. The demand for skilled professionals continues to grow, safety expectations continue to rise, and the pace of change requires constant adaptation. In response, ABC NESD remains focused on expanding apprenticeship and training opportunities, strengthening safety leadership, and creating an environment where members can build relationships that lead to real outcomes.

Equally important is our commitment to protecting the merit shop philosophy. We will continue to advocate for fair and open competition and ensure our members have a strong, consistent voice at both the state and national levels.

This directory reflects a network of professionals committed to quality, accountability, and doing work the right way. I encourage you to use it not just as a resource, but as a tool to engage, collaborate, and support one another.

Thank you for your continued commitment to ABC Nebraska/South Dakota. Together, we are strengthening our companies, our workforce, and the future of construction.

Sincerely,

Bill Brown

The Excellence in Construction (EIC) Awards is more than an awards program — it is a celebration of craftsmanship, safety, leadership, innovation, and the companies raising the standard for merit shop construction across Nebraska and South Dakota. This is the industry's chance to recognize achievement and elevate the work that defines our region.

Congratulations!
