

STEP into Safety Excellence

ABC's STEP Safety and Health Management System

What is STEP

The ABC's STEP Health and Safety Management System provides a framework for measuring safety data and benchmarking with industry peers.

MEASURE

Collect and analyze your company's safety data to establish a baseline and identify areas for improvement. This includes tracking leading and lagging indicators.

STRENGTHEN

Enhance your safety programs and practices based on data analysis and best practices. Implement targeted training and improve hazard communication.

BUILD

Create a strong safety culture through leadership commitment, employee involvement, and continuous improvement. Foster a proactive approach to safety.

We are committed to providing innovative solutions that will help create a better tomorrow for everyone.

Why Participant

- Benchmark your safety system.
- No cost to participate.
- Resources and support available at every step.

Frequently Asked Questions

What is STEP?

A comprehensive safety management system.
